New websites will outline journey to unitary

Two new websites have been launched offering a reliable source of information about the move toward unitary governance in Northamptonshire.

Named 'Future Northants North' and 'Future Northants West' they carry the same core information while outlining the separate processes being followed in the north and west of the county.

These dedicated sites describe the process so far, who is involved, progress from public meetings, and news including details of the upcoming shadow authority elections.

Strategic Delivery Director for the Future Northants unitary programme Theresa Grant, said: "This is by far and away the best means of keeping up to date with our progress.

"There is understandably a great deal of speculation about our move toward unitary governance and these two sites offer the most reliable means of ensuring you are aware of the facts and keeping up to date on progress.

"And if the sites don't have answers to your questions, you will be able to contact us and be confident of an accurate response."

The sites are available at www.futurenorthantsnorth.org and www.futurenorthantswest.org
