

Make Your Own VE Day Party Hat

You will need:

4 double sheets of newspaper

Felt-tips, paper, scissors and glue (or anything else you have to hand) to decorate

Layout your 4 sheets of newspaper on top of each other

Working with all 4 sheets, fold the top corner across to the middle and then fold the other top corner to the middle so the top side of your newspaper is a triangular shape

Fold the top two sheets of the straight edge nearest to you up towards the base of the triangle. You may wish to fold this twice to make it stronger

Turn your newspaper over and do the same action again with the remaining two sheets.

Make sure that your folds are very good – you may want to get an adult to help!

Pull the straight edges apart and pop on your head. If you find it is very big, use a stapler to staple both straight sides together so that it fits comfortably
