

# Phone Mast Planned for Oundle Market Place

Do you think this 60 foot tower would make Oundle's marketplace look better or worse?

Give North Northants Council your views. Their planning department has received an application for this phone mast to be installed in the Market Place and they will have no choice but allow “deemed consent” under national planning rules **UNLESS** they receive enough objections from residents.

This phone mast will only provide a slightly better mobile phone reception but will change the way Oundle looks for many years to come.
